

1. How to Change Your Account Password

1. Navigate to the main dashboard and click on your **User Avatar** (or name) located in the top-right corner of the screen.
2. Select **Account Settings** from the dropdown menu.
3. Click on the **Security** tab in the left-hand menu of the settings page.
4. Locate the "Change Password" section.
5. Enter your current password in the first field to verify your identity.
6. Enter your new password in the second field (must be at least 8 characters, including one number and one special character), and re-type it in the confirmation field.
7. Click the **Save Changes** button. You will be automatically logged out and required to log back in with your new password.

2. How to Change the System Language

1. Open the Main Navigation menu on the left sidebar.
2. Click on the **System Preferences** icon (represented by a gear).
3. Scroll down to the **Localization & Region** section.
4. Click the **Language** dropdown menu.
5. Select your preferred system language (e.g., English, Bahasa Melayu).
6. Click the **Apply Preferences** button. The interface will instantly refresh to display all menus and prompts in the newly selected language.

3. How to Check and Update Profile Settings

1. Click on your **User Avatar** in the top-right corner and select **My Profile**.
2. Review your personal operator details, including your Operator ID, Assigned Role (e.g., Admin, Technician), and Contact Information.
3. To update your email address or phone number, click the **Edit Profile** button at the bottom of the information card.
4. Type your updated contact details into the editable text fields.
5. Click **Update Profile** to save. *Note: Your Operator ID and Assigned Role are locked for security purposes and can only be modified by a System Administrator.*
